Silberman from Studio Loft

The monochromatic scheme of this kitchen is easy on the eye, as are the natural Cristallo quartzite stone countertops. A polished linear stainless range hood adorns the range wall, and two generously-sized islands create flow and work space while a large inset sink window wall provides ample natural light. The breakfast bar is surrounded by Italian stainless steel counter stools, and side-by-side dual refrigerators/freezers stand adjacent on one side of a large walk-in pantry with a frosted glass door. Recessed LED lighting throughout the kitchen facilitates multiple levels of light.
